

9th International Conference Netys 2024

Virtual Event May 19-21, 2024

The 9th International Conference Netys 2024 will be held virtually from May 19-21, 2024. The conference will bring together researchers, practitioners, and policymakers from around the world to discuss the latest advances in network technology and applications.

The conference will feature a keynote address by Dr. John Doe, a world-renowned expert in network technology. There will also be a variety of technical sessions, workshops, and tutorials on a wide range of topics, including:

- Network architecture and design
- Network security
- Network performance
- Network applications
- Network management

The conference will provide a unique opportunity for attendees to learn about the latest advances in network technology and to network with other experts in the field.
