By exploring the emotional landscape of post-tragedy emergency, the authors provide a comprehensive understanding of how affect manifests in performance contexts. They investigate how emotions can be evoked, expressed, and processed through artistic means, shedding light on the transformative potential of performance.

### **Performance as a Catalyst for Recovery and Resilience**

The book explores how performance can serve as a catalyst for recovery and resilience in the aftermath of tragedy. It presents case studies and theoretical frameworks that demonstrate the therapeutic and empowering role of performance in post-tragedy settings.

The authors highlight how performance can create safe spaces for expression, provide opportunities for collective healing, and facilitate the articulation of unspeakable experiences. They argue that performance has the power to catalyze individual and community transformation, fostering resilience and paving the way for post-traumatic growth.

### **Reimagining Emergency through Performance**

The book challenges traditional notions of emergency by examining how performance can redefine and reimagine emergency situations. It explores innovative practices that utilize performance to address the complexities of disaster response, crisis management, and social justice.

The authors propose that performance can disrupt conventional emergency protocols, create platforms for critical dialogue, and empower marginalized communities to voice their experiences. They demonstrate how performance can humanize emergencies, fostering empathy, understanding, and collaborative action.
