In her new book, *British Nurse In Peru, Benin And Saudi*, author Angela shares her remarkable experiences as a nurse working in three vastly different countries. With vivid descriptions and poignant anecdotes, she paints a vivid picture of life and healthcare in these diverse settings.

Angela's journey begins in Peru, where she volunteers at a small clinic in the remote Andes Mountains. She witnesses firsthand the challenges of providing healthcare in a resource-poor setting, and she learns to adapt her skills to meet the needs of her patients. From treating altitude sickness to delivering babies, Angela's experiences in Peru are both humbling and inspiring.

Next, Angela travels to Benin, a West African country where she works in a busy hospital in the capital city of Cotonou. Here, she is confronted with a different set of challenges, including high rates of infectious disease and limited access to medical supplies. Despite these challenges, Angela is impressed by the resilience of her patients and the dedication of her colleagues.

Finally, Angela's journey takes her to Saudi Arabia, where she works in a private hospital in the coastal city of Jeddah. Here, she experiences a completely different healthcare system, one that is both modern and expensive. Angela learns about the challenges of providing healthcare to a wealthy population, and she witnesses the impact of cultural differences on the delivery of care.

Throughout her travels, Angela encounters a wide range of people, from fellow nurses and doctors to patients and their families. She learns about different cultures, beliefs, and ways of life. She also learns a great deal about herself, and she comes to a new understanding of her own place in the world.

British Nurse In Peru, Benin And Saudi is a fascinating and inspiring account of one woman's journey to provide healthcare in some of the world's most challenging and rewarding settings. Angela's story is a testament to the power of nursing and the importance of cross-cultural understanding.
