

# Deepfakes: The Coming Infocalypse - Unmasking the Dangers and Safeguarding our Truth

## Prepare for the Era of Fabricated Reality

In the era of digital abundance, the lines between truth and deception have blurred. Deepfakes, sophisticated AI-generated fabrications, are emerging as a potent threat to our collective understanding of reality. Nina Schick, a leading expert on digital manipulation, unveils the alarming implications of deepfakes in her groundbreaking book, "Deepfakes: The Coming Infocalypse."

## Unveiling the Infocalypse

Schick's book meticulously explores the manipulative potential of deepfakes, tracing their history, analyzing their technical capabilities, and assessing their far-reaching consequences. She presents a comprehensive panorama of the various sectors vulnerable to deepfake attacks, including journalism, politics, entertainment, finance, and national security.
