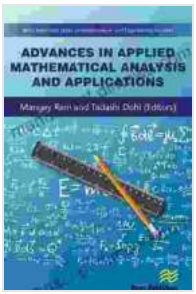
In Honor Of The 90th Birthday Of Constantin Corduneanu: Ekaterinburg Russia July

Constantin Corduneanu, a renowned Romanian mathematician and professor, celebrated his 90th birthday in Ekaterinburg, Russia, in July. Corduneanu is a leading expert in the field of functional analysis and has made significant contributions to the study of partial differential equations, integral equations, and operator theory.



Mathematical Analysis With Applications: In Honor of the 90th Birthday of Constantin Corduneanu, Ekaterinburg, Russia, July 2024 (Springer Proceedings in Mathematics & Statistics Book 318) by Giuseppe Arbia

Corduneanu was born in Romania in 1931. He studied mathematics at the University of Bucharest and received his doctorate in 1956. After completing his studies, Corduneanu taught at the University of Bucharest and the University of Iasi. In 1965, he was appointed to the Romanian Academy of Sciences. Corduneanu has also held visiting positions at universities around the world, including the University of Paris, the University of Oxford, and the University of California, Berkeley.

Corduneanu's research has focused on the development of new methods for solving partial differential equations and integral equations. He has also made significant contributions to the study of operator theory. Corduneanu's work has been published in over 300 papers and books.

In addition to his research, Corduneanu has also been a dedicated teacher. He has supervised over 50 doctoral students and has taught countless undergraduate and graduate students. Corduneanu is a gifted communicator and his lectures are known for their clarity and insight.

Corduneanu's 90th birthday celebration was attended by mathematicians from all over the world. The celebration included a series of lectures and workshops on Corduneanu's work. The celebration was a fitting tribute to a great mathematician and teacher.

Corduneanu is a true pioneer in the field of mathematics. His work has had a profound impact on the development of the field and he continues to be an inspiration to mathematicians around the world. On the occasion of his 90th birthday, we celebrate his life and work and wish him many more years of happiness and productivity.
