Born into Irish aristocracy, Gibson possessed an independent spirit and a deep-seated disdain for tyranny. Driven by a sense of justice and a profound belief in the power of her actions, she embarked on a mission that would forever etch her name in history.

## **A Plan to Topple a Tyrant**

Gibson's target was none other than Benito Mussolini, the charismatic dictator who had seized power in Italy in 1922. Mussolini's rise had been marked by suppression of dissent, violence against political opponents, and a growing threat to the fragile peace of Europe.

Gibson believed that by eliminating Mussolini, she could strike a blow against fascism and restore liberty to the Italian people. With unwavering determination, she devised a bold plan to assassinate him.

In April 1926, Gibson traveled to Rome, a city buzzing with political tension. She positioned herself near the Palazzo Chigi, the official residence of the Prime Minister, and waited for the opportune moment.

### **The Assassination Attempt and Its Aftermath**

As Mussolini emerged from the building, Gibson stepped forward and fired two shots at him. Miraculously, Mussolini survived, but the impact of the incident sent shockwaves through Italy and beyond.

Gibson was arrested and charged with attempted murder. During her trial, she remained defiant, declaring that she had acted out of a moral obligation to rid the world of a tyrant.

However, the Italian court found her guilty and sentenced her to five years in prison. Gibson served her sentence in various institutions, including a mental asylum, where she was subjected to questionable treatment.

### **A Life Dedicated to Freedom**

Gibson's life after her release was marked by both triumph and tragedy. She became a symbol of resistance against fascism, but her mental health suffered from the trauma she had endured.

In her later years, she lived in obscurity in Ireland, where she continued to campaign for justice and human rights. Despite the challenges she faced, Gibson's unwavering spirit never dimmed.
